A glance to the past to show devotion to Pratt's historical aspects.

The ancient buildings and stability of the surroundings that will be forever

embedded in the minds of those that attended.

Oh, cut my hair. I wear make up. It's helped me progress, ~~it's~~ pushed me to the edge and left me with more tattoos than I came here with. It made me a professional... and discovered the limits my body can physically undergo...

I WAS AWARE OF THE REAL THINGS IN MY LIFE

The Bureaucracy

HAS TAUGHT ME ABOUT BEING DIFFERENT TO DISAPPOINTMENT

I have black hair now, so NY is a great experience coming out here. Coming from Long Island people are not as different. The cultural diversity makes you see different sides to everything.

puberty!

STRESS IS NOW

I've become more aware of the business of illustration, refined my printing techniques, learned a number of things for Mac and Win, learned about good composition, better heart work, and also how to deal with people better.

JUST LOOK AT ME NOW!

I have been forced into new ways of being, the work outcast loner.

ACTOR MY BACK HURTS

very tired friendly outgoing Now I'm even more confused.

It has made me more open-minded, confident and stronger.

Brooklyn makes everybody different, ain't nothing like being here. What a long strange trip it's been.

It's made me just a bit more psychotic.

Einstein

realized that the key concept,
on which all comparisons between differently moving

observers and frames of reference depended,
is the notion of universal,
Or

absolute, simultaneity; that is to say,
the proposition that two events that appear
simultaneous to any one observer will also be
judged
to
take place at the same time by all other observers

How significant will college be in five years? Ten?

This ~~time~~ spent working, playing . . . working,
will only be a fragment of time full of memories,
good and better.

Some will remember it one way, and others another.

A technical drawing of a bicycle pedal assembly, showing the crank, pedal, and chainring. The drawing is overlaid with the text 'Industrial Design' in a large, blue, sans-serif font. The background is a light gray with faint technical lines and dimensions, suggesting a professional engineering or design context.
